Installation:

MUST BE INSTALLED BY A LICENSED ELECTRICIAN.

1. This product can be easily installed using the pre-assembled power cord & plug which fits a standard power point.
2. Move the hanging clips on the back of the mirror so that they are 50mm from each end and provide a distance of 600mm between each clip.
3. Install mirror to wall using suitable wall anchors that are designed to hold a minimum weight of 20kg.

Operation:

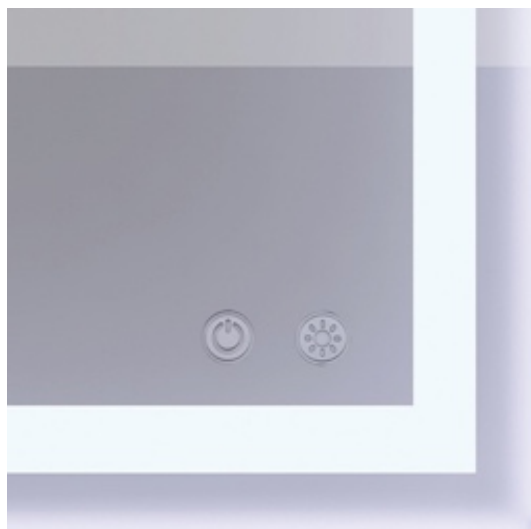

The LED light can switch from warm white to cool white.

1. Turn mirror on by touching on/off switch on mirror face.

2. Change between warm white and cool white by touching the colour changing button on the mirror face.

For indoor use only
